

Grocery Store Chain

Data and Applications Project Phase - 2

Team No 45: Poorvi H C(2021113004), Ashna Dua (2021101072), Mahika Jain (2021101096)

CHANGES:

Employee entity attributes were missing from the Phase - 1 pdf, but the relations with the employee entity were present. These attributes are visible in the ER DIAGRAM as well. The attributes were added as follows:

Employee

The employees of the grocery store help in running the store. The employee can help in storing the groceries, solving customer queries, managing the store, etc.

- Employee ID* [Primary Key]
- Name [Composite Attribute]
 - First Name
 - Last Name
- Store ID
- DOB
- Age [Derived from DOB]
- Job Type
- Supervisor
- Date of Joining
- Salary
